

The 2nd Toulouse Biology and Economics Workshop

May 22-23, 2014

Just as physics provides a foundation for chemistry, and chemistry for medicine, biology is the natural foundation for any science that seeks to understand the behavior of living beings. Recent years have witnessed a surge in empirical and theoretical research that establishes connections between economics and biology. We are proud to present several of the key contributors to this research at the 2nd Toulouse Biology and Economics workshop:

Erol AKÇAY (University of Pennsylvania)

Samuel BOWLES (Santa Fe Institute)

David CESARINI (New York University)

Andy GARDNER (University of St Andrews)

Michael HOCHBERG (Université Montpellier 2)

Hillard KAPLAN (University of New Mexico)

Laurent LEHMANN (University of Lausanne)

Olof LEIMAR (Stockholm University)

Bobbi LOW (University of Michigan)

Georg NÖLDEKE (University of Basel)

Poster session for post-docs and Ph.D. students:

Besides the plenary sessions, there will be a poster session for post-docs and Ph.D. students. A limited number of travel grants will be available. Submissions (abstract + C.V.) should be sent to econbio_poster@iast.fr no later than March 15, 2014. When submitting, please specify whether you are applying for a travel grant.

Attending the workshop:

The sessions will be open to the public. There will be a limited number of lunch tickets available for those who are not formally registered for the workshop. To obtain a lunch ticket, you need to register by writing to econbio@iast.fr.

Organizers:

Ingela Alger (Toulouse School of Economics, CNRS, LERNA, and IAST)

Jörgen Weibull (Stockholm School of Economics, and IAST)

Funding:

Agence Nationale de la Recherche (ANR)

Institute for Advanced Study in Toulouse (IAST)

Laboratoire d'Economie des Ressources Naturelles (LERNA)
